National Emergency Alert System (EAS) Test

- On 09/28/16 at 1120 hours (PST) the Federal Emergency Management Agency (FEMA), in coordination with the Federal Communications Commission (FCC), will conduct a mandatory nationwide test of the Emergency Alert System (EAS) to verify the delivery and broadcast, and assess the readiness for distribution, of a national level test message.
- The EAS test is made available to radio, television, cable, and direct broadcast satellite systems and is scheduled to last approximately one minute.
- The message of the test will be similar to the regular monthly test message of EAS, normally heard and seen by the public: "This is a national test of the Emergency Alert System. This is only a test."
- FEMA is taking pains not to cause any unnecessary public concern. Such national tests can be expected to become routine in coming years.
- FEMA advises, "The test is intended to ensure public safety officials have the methods and systems that will deliver urgent alerts and warnings to the public in times of an emergency or disaster. Periodic testing of public alert and warning systems is also a way to assess the operational readiness of the infrastructure required for the distribution of a national message and determine what technological improvements need to be addressed."

Small Earthquakes Near the Salton Sea in Southern California

- Following a swarm of recent small magnitude earthquakes that began on Monday near the Salton Sea in Southern California, the Director of the Governor's Office of Emergency Services reminded local emergency managers and the public to be prepared for the potential of similar or larger earthquakes over the next week.
- "California is earthquake country. We must always be prepared and not let our guard down," said Director Mark Ghilarducci. "The threat of an earthquake on the San Andreas Fault hasn't gone away, so this is another important opportunity for us to revisit our emergency plans and learn what steps you need to take if a significant earthquake hits."
- This reminder comes just a few weeks before the Great Shakeout, a nationwide earthquake preparedness drill on 10/20/16.
- Ghilarducci asked the California Earthquake Prediction Evaluation Council (CEPEC) to convene on Tuesday morning to discuss and evaluate a sequence of small earthquakes that have occurred about 10 kilometers southwest of Bombay Beach, Salton Sea area. CEPEC is a committee of earthquake experts that reviews potentially credible earthquake forecasts and advises the Director using their best judgement.
- The council concluded that stresses associated with this recent earthquake swarm may slightly increase the probability between 0.03 percent and 1.0 percent of an additional earthquake as large, or larger, than the 09/26/16 magnitude 4.3 occurring over the next week. Although this increased probability is relatively small, Ghilarducci stressed that it's always important for officials and the public to take steps to prepare.
- On Tuesday afternoon, Cal OES held a conference call with emergency managers in eight Southern California counties to discuss this recent swarm of earthquakes and ensure that local emergency plans and preparedness education remains a priority. He reminded them of the important earthquake response and recovery planning work that has been done over the years, including earthquake plans in Northern and Southern California and the Cascadia Subduction Zone–Earthquake and Tsunami Plan along the north coast.

2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

- Following the tragic earthquake of January 2010 in Haiti, U.S. Immigration and Customs Enforcement temporarily ceased removing Haitian nationals to Haiti. On 09/21/16, Secretary Johnson from the U.S. Department of Homeland Security directed that enforcement decisions with respect to Haitian nationals return to the consistent standard practice guided by memorandum dated 11/20/14 "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants" consistent with the practice for nationals from other nations. Haitian nationals currently covered by Temporary Protected Status in the United States are unaffected by this change in policy.
- All Haitian Entrants, including women and children at the Christ Ministries Center, have been transferred to the El Cajon Armory as of 09/26/16. The plan is to still consolidate shelter operations to the El Cajon Armory by Wednesday, 09/28/16.
- Between the two shelters (National City Armory and El Cajon Armory) the shelter counts reported on 09/27/16 were:
 - National City Armory – 29 persons (-8)
 - El Cajon Armory – 85 persons (+26)
 - Christ Ministry Center – All entrants (with the exception of pregnant women and their families) were transferred to the El Cajon Armory.

Non Governmental Organizations

- Alliance San Diego and Christ Ministry Center United Methodist Church continue to operate the two temporary shelters established at the CNG Armories.
- Alliance San Diego is continuing to work with DHS to reunite families.
- Alliance San Diego has provided additional creole volunteers and they will be at the El Cajon armory on 9/27/16.
- All entrants sheltering at the church have been transferred to either the El Cajon shelter or the Best Western Hotel to allow for the church to deep clean and renovate (getting new carpet installed) the church.
- There are currently nine (9) pregnant women and they have been transferred to the Best Western Hotel in San Diego with their children and spouses (15 people total went to the hotel).
- The American Red Cross (ARC) is continuing to work with the Alliance San Diego and Christ Ministry Center United Methodist Church to provide unbranded cots, blankets, hygiene kits, dormitory management expertise, technical assistance and training to church personnel in managing shelters.
- ARC plans to pick up the materials at the National City Armory on 09/28/16.

2016 Haitian Entrants Support

State agencies currently supporting the sheltering operations are as follows:

California Department of Social Services (CDSS):

- The California Department of Social Services (CDSS) is coordinating with U.S. Department of Health and Human Services, Administration for Children and Families and Office of Refugee Resettlement (ORR).
- CDSS issued a one-time augmentation of \$1.3 million of Refugee Social Services (RSS) funding provided by ORR and can be used for transitional housing assistance and transportation. Of the \$1.3 million:
 - \$334,224 to San Diego County Health and Human Services Agency
 - \$128,764 to and Catholic Charities/Wilson Fish
- CDSS Disaster Services Bureau (DSB) reached out to its feeding partners (Southern Baptist Disaster Relief, The Salvation Army, food banks, etc.) to find out if they have the resources/capacity to handle feeding operations or provide food to the shelters.
- DSB is working with our Emergency Food Assistance Program (EFAP) to research commodities programs.

Cal Volunteers:

- Cal Volunteers at National City armory are planning to relocate all entrants to the El Cajon armory on 09/28/16.
 - CV and CA AmeriCorps Disaster Team Members will clean the Armory on 09/28/16, with the help of volunteers if available, prior to departing the Armory.
 - Supplies and food on hand will be transported to the Christ Ministry Church on 09/28/16.
 - CV will be arranging for the transport of entrants from El Cajon to National City and vice versa depending on occupants' airline departure dates.
- CV continues to arrange transportation for those going to the airport on 09/28/16 and 09/29/16.
- CV and AmeriCorps Disaster Team members plan to demobilize on 10/02/16.

California Department of Public Health (CDPH):

- CDPH ORH contacted the County on the Zika testing for pregnant women. CDPH is awaiting information from the County.
- CDPH ORH, traveled to San Diego on 09/23/16 to meet with the US Dept. of Health & Human Services (HHS), Assistant Secretary for preparedness and Response, Regional Emergency Office and San Diego County Public Health Staff. HHS staff was there to assess the situation in San Diego. They toured the shelters only from the outside and just asked San Diego Staff and questions about the Haitian situation.

California Department of Food and Agriculture (CDFA):

- Continuing to monitor the situation.

2016 Haitian Entrants Support

State agencies currently supporting the sheltering operations are as follows:

California National Guard (CNG):

- Per CNG, the plan is to demobilize both armories on 10/04/16 at 0800.
 - The California National Guard (CNG) is mission tasked to stand up two Armories for shelter.

San Diego County

- The San Diego Operational Area continues to monitor the situation. County Eligibility Staff have been onsite at the shelters helping with applications for CalFresh and Medi-Cal. [Total number of entrants that applied for benefits \(before 09/26/16\) are:](#)
 - [66 people contacted and 32 applications are being processed for CalFresh and/or Medi-Cal.](#)
 - [CalWORKs cases are being handled out of the County's Family Resource Center for the families that qualify, so are separate and in addition to these numbers.](#)
- [Public Health Staff and Eligibility workers continue to be available as needed. The Eligibility teams will be back onsite on Wednesday, 09/28/16.](#)

Imperial County

- The Imperial Operational Area is monitoring the situation in the Calexico Point of Entry and is currently not significantly impacted.

Active Weather Warnings, Watches and Advisories by County:

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

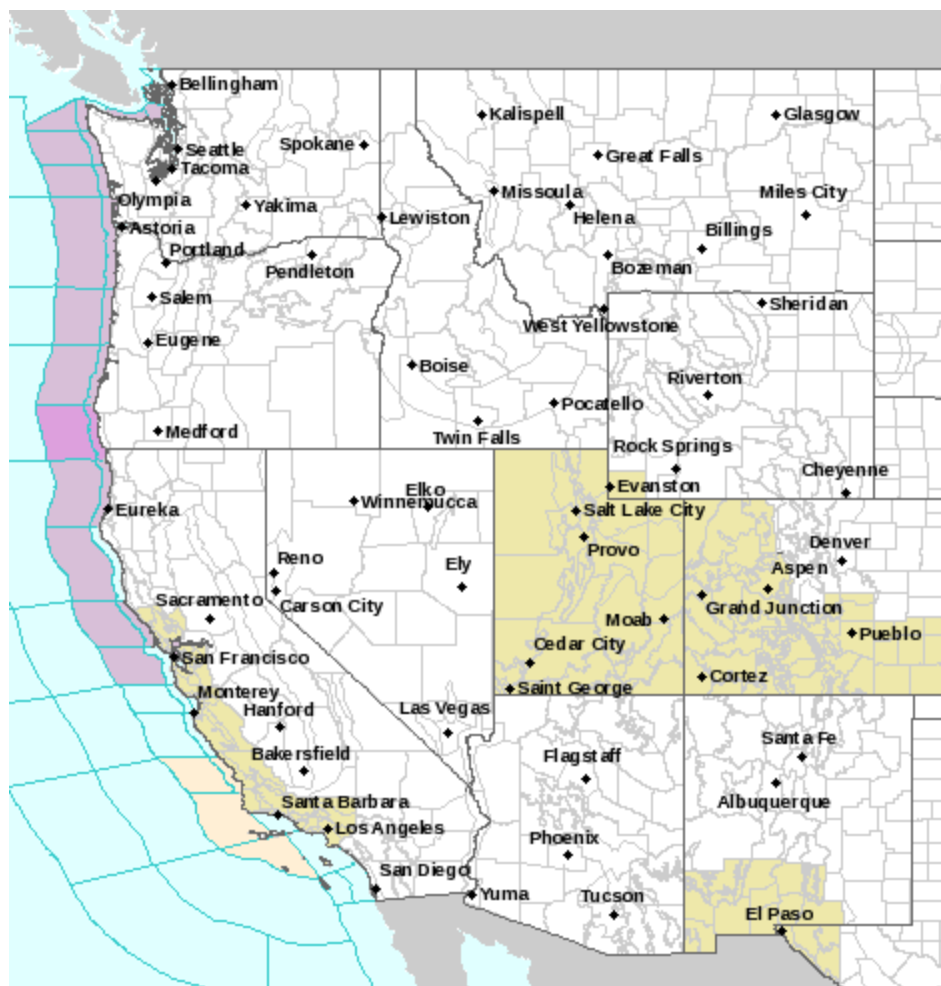

The high pressure ridge that has been over the region is weakening as a low pressure trough approaches from the north. This trough will be the dominant weather feature through early next week. Afternoon temperatures will be 4-7 degrees above normal today, and southwest winds will develop this afternoon in response to the incoming trough. Subtropical moisture moving northward through Southern California will likely reach the Central Sierra late today, but the adjacent portion of the region will only see a few afternoon cumulus. As the trough strengthens offshore on Thursday the resulting southwest flow will push the subtropical moisture off to the east. Southwest winds will increase across the will region through Saturday. Southwesterly gusts along and east of the Cascade-Sierra crest will reach 30 mph Thursday, 40 mph and locally higher Friday, and 35 mph early afternoon on Saturday before shifting to lighter westerly winds after a front passes through. Humidity will be 15-30% there each afternoon. Friday is considered the only High Risk day due to the stronger winds. Temperatures will drop to near normal on Thursday then remain 8-12 degrees below normal into next week. There is a slight chance of light rain showers in far northwest California Friday night, and a slight chance of light rain in Del Norte, Humboldt, western Siskiyou, and western Trinity counties on Saturday. More widespread light to briefly moderate precipitation is possible over mid and upper elevations across the entire region late Sunday and Monday, with lower elevations receiving scattered light amounts even as far south as the Bay Area. Far northwestern California may see 1-2 inches of rainfall from this system. Snow levels could drop as low as 5000 feet in the north and 6000 feet in the south late Sunday and Monday. Spotty showers will likely continue on Tuesday, followed by high pressure Wednesday and Thursday.

SOUTHERN CALIFORNIA

A southerly feed of subtropical moisture will allow isolated showers and thunderstorms to develop over many mountainous areas today. Most of the storms will remain near the Sierra Crest and across the highest elevations of Southern California. An increase in surface dew points has occurred and most of the storms should produce some rainfall. High temperatures today will be 5-8 degrees cooler with highs in the 70s along the coast and in the mountains to the lower to mid 90s in the valleys. Winds will be light. Thursday, look for another 5 degrees of cooling to occur. Only a handful of storms should occur Thursday and they will be limited to the Sierras and the deserts and no further thunderstorm activity is expected through the period. A deep trough will slowly approach the area late this week into the weekend. This trough will produce breezy conditions as well as much cooler weather Friday into the weekend. By Saturday and Sunday, expect valley high temperatures to only be in the upper 70s to lower 80s. It will turn breezy each afternoon Saturday through next Tuesday in and near the deserts...especially in the Kern County Mountains and Banning Pass. It will also be windy in the Sierras where wind gusts to 40 mph will be possible Saturday into early next week. The trough may bring some light precipitation to areas from Yosemite National Park northward Sunday night into Monday, but most of the precipitation will remain north of the area. Relatively cool weather will persist through next Monday before warmer weather arrives by the middle of next week. No offshore winds are expected during the next 7 days.
